

Table of Contents

Chapter 1 – Introduction and Executive Summary

Chapter 2 – Existing Conditions

<i>Chapter Highlights</i>	2-1
Study Area	2-3
Regional Context.....	2-3
Socioeconomic Characteristics.....	2-4
Population Growth	2-4
Population by Superneighborhood	2-5
Other Key Indicators.....	2-5
Business Establishments	2-6
Transportation and Utility Infrastructure.....	2-7
Existing Roadway Network.....	2-8
Traffic Volumes.....	2-10
Rail	2-10
Transit	2-10
Parking	2-13
Pedestrian and Bike Circulation.....	2-14
Utility Infrastructure	2-14
Land Use.....	2-15
Existing Land Use	2-15
General Development Pattern and Character	2-19
Nodes	2-19
Edges	2-20
Landmarks and Community/Public Facilities.....	2-20
Special Districts	2-20
Environmental and Cultural Resources.....	2-23
Floodplains	2-23
Urban Habitat	2-24
Air Quality Attainment Status	2-24
Historic Buildings and Resources.....	2-24
Development Codes and Ordinances.....	2-24
Buildings and Neighborhood Protection (Chapter 10).....	2-25
Floodprone Areas (Chapter 19)	2-25
Off-Street Parking and Loading (Chapter 26)	2-25
Subdivisions, Developments and Platting (Chapter 42)	2-25

APPENDIX: Additional Data and Inventories	2-29
METRO Bus Route Descriptions.....	2-33
Community and Public Facilities	2-42
Historic Buildings and Resources	2-45

Chapter 3 – Initial Alignments Evaluation

<i>Chapter Highlights</i>	3-1
Purpose of Evaluation	3-2
Five Alternative Alignments	3-3
Evaluation Process	3-3
Alignment “A” Considerations	3-4
Alignment “B” Considerations.....	3-6
Alignment “C” Considerations.....	3-7
Alignment “D” Considerations	3-10
Alignment “E” Considerations	3-12

Chapter 4 – Baseline Opportunities Analysis

<i>Chapter Highlights</i>	4-1
Inner Katy Market Conditions	4-3
Property Tax Revenue	4-4
Sales Tax Revenue	4-6
Employment and Wages.....	4-7
Nonemployer Statistics.....	4-8
Recent Real Estate and Development Activity.....	4-9
Real Estate Outlook	4-11
Analysis of Long-Term Redevelopment Potential.....	4-12
Model Results	4-13
Potential for Transit-Oriented Development	4-14
Development Capacity Analysis.....	4-14
Redevelopment Likelihood and Timing	4-15
Conclusions on Redevelopment Potential.....	4-15
Impact of Transit	4-17
Case Studies	4-17
APPENDIX A: Additional Data Tables	4-25
APPENDIX B: Redevelopment Model Methodology	4-30
Pro-Forma Calculations	4-31
Assumptions	4-32
APPENDIX C: Findings on Property Value Impacts.....	4-34

Chapter 5 – Alternative Development Scenarios

<i>Chapter Highlights</i>	5-1
---------------------------------	-----

Development Scenarios Workshop.....	5-2
Refinement of Alternative TOD Scenarios	5-3
Key Features of TOD Scenarios	5-4
Alignment B – Scenario 1	5-5
Alignment B – Scenario 2	5-6
Alignment C – Scenario 1	5-7
Alignment C – Scenario 2	5-7
Scenario Analysis.....	5-8
Redevelopment Implications.....	5-8
Potential for Transit-Oriented Development.....	5-10
Pedestrian Activity	5-10
Cumulative Comparison of Scenarios.....	5-11
APPENDIX: Development Scenarios Workshop Procedure	5-13
Materials	5-13
Transit Station Placement	5-13
Development Possibilities.....	5-13
Land Use Experimentation and Consensus.....	5-14
Group Presentations	5-15

Chapter 6 – Feasibility Analysis

<i>Chapter Highlights</i>	6-1
Absorption of Population and Housing Units.....	6-5
Population.....	6-7
Housing.....	6-8
Employment.....	6-11
Absorption Summary.....	6-12
Cost Factors	6-12
Transit-Related Costs.....	6-13
Infrastructure Costs	6-14
Cost Summary.....	6-16
Benefits	6-16
Sales Tax	6-17
Property Tax.....	6-18
Wages and Income.....	6-19
Economic Diversification	6-20
APPENDIX A: Additional Data Tables.....	6-22
APPENDIX B: Method for Estimating Appraised Value from Development Construction Costs	6-36
APPENDIX C: Diversification Index Methodology.....	6-37

Chapter 7 – Preferred Scenario and Implementation

<i>Chapter Highlights</i>	7-1
Final Transit Alignment and Mode.....	7-4
Potential High-Capacity Transit Alignments	7-4
Potential Transit Modes.....	7-6
Initial Mode Screening.....	7-8
Final Mode and Alignment Screening.....	7-10
Final Transit Alignment and Mode.....	7-20
Final Transit-Oriented Development Scenario	7-21
Two Final Scenarios	7-21
Observations on Final Scenarios.....	7-22
Final Scenario for Alignment C.....	7-22
Final Scenario for Alignment B.....	7-23
Implementation Strategies.....	7-24
Implementation of Transit-Oriented Development (TOD)	7-24
Design Opportunities and Preferences	7-25
Transit Implementation	7-31
APPENDIX: Transit Funding Options	7-34
Federal Sources	7-34
State Sources.....	7-41
Local Sources.....	7-42
